Database Technologies, Models, Applications and Trends

Workshop

October 08-11, 2002
Split, Dubrovnik (Croatia)
Ancona, Venice (Italy)

Call for Papers

Workshop on Database Technologies, Models, Applications and Trends will be held aboard the luxury ship "Marko Polo" traveling on the route Split (Croatia) - Venice (Italy) - Ancona (Italy) - Dubrovnik (Croatia) in the frame of the 10th International Conference on Software, Telecommunications and Computer Networks - SoftCOM 2002.

The purpose of this workshop is to provide a forum for scientists, engineers and practitioners interested in the advancement and applications of databases, especially in the area of telecommunications. It is the opportunity to present and get knowledge of the latest research, results, ideas, developments and applications in this field.

Original, yet unpublished papers addressing the following database topics in the area of telecommunications (but are not limited to) are invited:

- Distributed Databases
- Relational Databases
- Object-relational Databases
- Object-oriented databases
- Multimedia Databases
- Spatial Databases
- Web-based Databases
- Knowledge Databases
- Corporate Databases
- Database Reengineering
- Data Warehousing and Mining
- Application Development over the Database
- Database Design and Architecture
- Information Visualization

Each day of the conference the ship will be anchored in one of the ports on the route, and overnight it will sail towards the next destination. This provides participants with the opportunity to share ideas in close contact with their coleagues and to enjoy the pleasant and inspiring ambience while visiting the ports along the beautiful Adriatic coast. During the conference the car deck will serve as an exhibition arena for exhibitors of software and telecommunication products.
