

SoftCOM 2002

International Conference on
Software, Telecommunications
and Computer Networks

Software Agents

Special Session

October 08-11, 2002
Split, Dubrovnik (Croatia)
Ancona, Venice (Italy)

Call for Papers

Workshop on Database Technologies, Models, Applications and Trends will be held aboard the luxury ship "Marko Polo" traveling on the route Split (Croatia) - Venice (Italy) - Ancona (Italy) - Dubrovnik (Croatia) in the frame of the 10th International Conference on Software, Telecommunications and Computer Networks - SoftCOM 2002.

New concepts and standards involving software agent technology are constantly spreading in mainstream computer science, as well as in specific domains like data communications, information retrieval, user interface design, robotics, electronic commerce, computer games, education and training, smart environments, social simulation and so on.

The purpose of this workshop is to present on going work as well as theoretical proposals in the area of the agent technology.

Areas of the interest for the conference are:

- Agent design issues,
- Intelligent agents,
- Multi-agent systems,
- Agent communication and coordination protocols,
- Agent Based Distributed Systems.

Each day of the conference the ship will be anchored in one of the ports on the route, and overnight it will sail towards the next destination. This provides participants with the opportunity to share ideas in close contact with their colleagues and to enjoy the pleasant and inspiring ambience while visiting the ports along the beautiful Adriatic coast. During the conference the car deck will serve as an exhibition arena for exhibitors of software and telecommunication products.

Schedule	Complete manuscript to be received by	May 31, 2002
	Notification of acceptance mailed out by	August 1, 2002
	Camera-ready manuscript to be received by	September 1, 2002

More information about the Conference including details on the submission process and authors kit are available on the websites
