Call for Papers

Symposium on "on Image and Video Processing" in the frame of the 21th International Conference on Software, Telecommunications and Computer Networks (SoftCOM 2013), will be held in Split and Primosten on September 18-20, 2013.

This symposium will deal with recent advances in the field of image and video processing. Thanks to importance of visual information in everyday life this area attracts growing research interest which leads not only to theoretical results, but also enables range of new applications. This especially encourages collaboration between academic society and industry opening opportunities for development of innovative products in the field.

Accepted papers will be published in the conference proceeding. Authors of selected best papers will be invited to submit an extended version of their manuscripts for publication in a special issue of the Journal of Communications Software and Systems (JCOMSS).

Prospective authors are invited to present original papers on the following subjects, but not limited to these, associated with the following topics:

- Image/Video Coding and Transmission
- Image/Video Processing and Analysis
- Image/Video Retrieval and Scene Understanding
- Applications of Image and Video Technology
- Biomedical Image Processing and Analysis
- Computer Vision
- Pattern Recognition
- Video Surveillance
- GPU processing
- 3D image and video processing
