September 17-19, 2014

Split, Croatia

Call for Posters/Demos

We are soliciting technical contributions showing innovative and original research including presentations of original developed patents applications as well as demonstrations of ICT prototypes. Contributions by PhD students which present inovative applications developed in their research are particularly welcome. SoftCOM 2014 will offer a pleasant open space in the Conference hotel to support the presentation of Posters and Demos. Topics of interest are the same as research topics of SoftCOM - see the Call for SoftCOM'14 General Conference.

Two-page abstracts should be submitted for a peer review. Accepted and presented abstracts describing the Posters and/or Demos will be published in the conference proceedings, and submitted to IEEE Xplore as well as other Abstracting and Indexing (A&I) databases. Authors must be present and available for discussion during the Poster/Demo sessions. No show will preclude publication in IEEE-Xplore. Authors are invited to submit a poster/demo via EDAS.

A competition among demonstrations will be running, where attendees will be offered the chance to vote for the best demonstration. The winner will be awarded by an iPad engraved with the **SoftCOM 2014 Best Demo Award**.

Steering Committee

Hrvoje Dujmić and Joško Radić
co-chairs:
University of Split, Croatia

Luigi Patrono
University of Salento, Italy

Dragan Poljak
University of Split, Croatia

Miljenko Mikuc
University of Zagreb, FER, Croatia

Pascal Lorenz
Univ. de Haute Alsace, France

Zoran Blažević
University of Split, Croatia

Petar Šolić
University of Split, Croatia

IMPORTANT DATES

Complete manuscript due
15 June, 2014
Notification of acceptance
15 July, 2014
