

September 17-19, 2014

Radisson Blu Hotel
Split, Croatia

Third Workshop on Software Engineering in Practice

Call for Papers/Presentations

The software is everywhere around us. The significant growth of ICT products and solutions depends on the quality of the used software. The software is essential enabler of future usage and growth of networked society surrounded with 50 billion of connected devices. Are we ready for such mass software production and keeping the software product life cycle continuous? Are the current researches and used software engineering practice correlated and ready to take responsibility for such broad and demanding software usage with quality and security demands? What are the software products in the “cloud” era, and are we ready to switch from software products to the model of software as a service? What challenges in software engineering are the most critical?

Let's take opportunity to discuss these software engineering challenges and exchange experience/ideas between researchers and practitioners. Prepare your view and share it with others You are invited to submit their proposals (regular paper, extended abstract or presentation like) through the EDAS website at <http://www.fesb.hr/softcom>. Paper submissions should be prepared in the two-column IEEE format.. The accepted papers will be presented within the workshop which will be held as a part of the Business Forum at SoftCOM 2014 conference. Accepted and presented papers will be published in the Workshop proceedings (not in IEEE Xplore).

Workshop Chair

Darko Huljenić

Ericsson Nikola Tesla
(darko.huljenic@ericsson.com)

IMPORTANT DATES

Complete proposals due	August 15, 2014
Notification of acceptance	Sept., 2014
Camera ready paper:	Sept. 07, 2014
Workshop date:	Sept. 17, 2014

More information about the SoftCOM 2014 Conference including authors kit are available on the website: www.fesb.hr/softcom

Conference Secretary: Petar Solic, University of Split, Croatia (softcom@fesb.hr)
